

§ 2562.2

43 CFR Ch. II (10–1–13 Edition)

§ 2562.2 Qualifications of applicant.

An application must show that the applicant is a citizen of the United States and 21 years of age, and that he has not theretofore applied for land as a trade and manufacturing site. If such site has been applied for and the application not completed, the facts must be shown. If the application is made for an association of citizens or a corporation, the qualifications of each member of the organization must be shown. In the case of a corporation, proof of incorporation must be established by the certificate of the officer having custody of the records of incorporation at the place of its formation and it must be shown that the corporation is authorized to hold land in Alaska.

§ 2562.3 Applications.

(a) *Execution.* Application for a trade and manufacturing site should be executed in duplicate and should be filed in the proper office. It need not be sworn to, but it must be signed by the applicant and must be corroborated by the statements of two persons.

(b) *Fees.* All applications must be accompanied by an application service fee of \$10 which will not be returnable.

(c) *Time for filing.* Application to purchase a claim, along with the required proof or showing, must be filed within 5 years after the filing of notice of the claim.

(d) *Contents.* The application to enter must show:

(1) That the land is actually used and occupied for the purpose of trade, manufacture or other productive industry when it was first so occupied, the character and value of the improvements thereon and the nature of the trade, business or productive industry conducted thereon and that it embraces the applicant's improvements and is needed in the prosecution of the enterprise. A site for a prospective business cannot be acquired under section 10 of the Act of May 14, 1898 (30 Stat. 413; 43 U.S.C. 687a).

(2) That no portion of the land is occupied or reserved for any purpose by the United States or occupied or claimed by natives of Alaska; that the land is unoccupied, unimproved, and unappropriated by any person claiming the same other than the applicant.

(3) That the land does not abut more than 80 rods of navigable water.

(4) That the land is not included within an area which is reserved because of springs thereon. All facts relative to medicinal or other springs must be stated, in accordance with § 2311.2(a) of this chapter.

(5) That no part of the land is valuable for mineral deposits other than coal, oil, or gas, and that at the date of location no part of the land was claimed under the mining laws.

(e) *Description of land.* If the land be surveyed, it must be described in the application according to legal subdivisions of the public-land surveys. If it be unsurveyed, the application must describe it by approximate latitude and longitude and otherwise with as much certainty as possible without survey.

§ 2562.4 Survey.

(a) If the land applied for be unsurveyed and no objection to its survey is known to the authorizing officer, he will furnish the applicant with a certificate stating the facts, and, after receiving such certificate, the applicant may make application to the State Director for the survey of the land. Upon receipt of an application, the State Director will, if conditions make such procedure practicable and no objection is shown by his records, furnish the applicant with an estimate of the cost of field and office work, and upon receipt of the deposit required will issue appropriate instructions for the survey of the claim, such survey to be made not later than the next surveying season. The sum so deposited by the applicant for survey will be deemed an appropriation thereof and will be held to be expended in the payment of the cost of the survey, including field and office work, and upon the acceptance of the survey any excess over the cost shall be repaid to the depositor or his legal representative.

(b) In case it is decided that by reason of the inaccessibility of the locality embraced in an application for the survey, or by reason of other conditions, it will result to the advantage of the Government or claimant to have the survey executed by a deputy surveyor, the State Director will deliver

an order to the applicant for such survey, which will be sufficient authority for any deputy surveyor to make a survey of the claim.

(c) In the latter contingency the survey must be made at the expense of the applicant, and no right will be recognized as initiated by such application unless actual work on the survey is begun and carried to completion without unnecessary delay.

§ 2562.5 Publication and posting.

The instructions given in subpart 1824 of this chapter, relative to publication and posting.

§ 2562.6 Form of entry.

Claims initiated by occupancy after survey must conform thereto in occupation and application, but if the public surveys are extended over the lands after occupancy and prior to application, the claim may be presented in conformity with such surveys, or, at the election of the applicant, a special survey may be had.

§ 2562.7 Patent.

The application and proofs filed therewith will be carefully examined and, if all be found regular, the application will be allowed and patent issued upon payment for the land at the rate of \$2.50 per acre, and in the absence of objections shown by his records.
